Dear Mr. Wright:

**SUBJECT: A-1 ORNAMENTAL IRON, INCORPORATED, 15019 SALT LAKE AVE, CITY OF INDUSTRY, CA 91746**

This letter serves to notify your Department that soils at the subject property are potentially contaminated with volatile organic compounds (VOCs) and heavy metals.

The occupant/owner of the subject property, Mr James L. Foley, Jr. has been under directives from this Department to characterize the subject site since January, 1990. To date, Mr. Foley has failed to submit the requested site characterization workplan and has been unresponsive to this Department's requests to do so.

The known contamination at the subject site does not present a known, significant public exposure hazard for the current site use. However, it may be of concern if a more sensitive land use is proposed for the site, or if further characterization reveals that contaminants are present in higher concentrations.

This Department requests that consideration be given to any request for permits and that notification be made to this Department. If you have any questions, please feel free to call Kim Clark at (213) 890-4114.

Very truly yours,

THOMAS W. KLINGER, SUPERVISOR  
SITE MITIGATION UNIT  
HEALTH HAZARDOUS MATERIALS DIVISION
